IN THE FUTURE, IT  
WASN'T KNOWN  
WHEN BUT THICK  
LAYER OF CLOUDS  
SLOWLY ENVELOPED  
THE ISLAND. EVERYONE  
CALLED IT THE  
CLOUD ISLAND.

AS TIME PASSED, THE  
ISLAND WAS  
GRADUALLY FORGOTTEN  
BY THE PEOPLE. NO  
LONGER DID ANYONE  
KNOW EXACTLY WHERE  
WAS ABOVE THE  
CLOUD ISLAND...

AND NO ONE  
KNEW WHERE  
THE CLOUD ISLAND  
CAME FROM.

MADE FROM  
ONE PITCHER

### Notes

Hayley: "Well, I'm this super bubbly person who keeps on and off, being oblivious. I like this and my current reading is just to consider the fragmentation of the culture because it's worked just enough to keep us plateaued at a certain age. However, literally anything and everything interesting always gets released and I'm going to just do whatever I want to do with who I wanna go to get involved in whatever what I should focus more on. Then it's all chance to make those interconnected because it's all based on the foundation. My current release is like "whatever I need to do, whatever I feel like I need", and there are some things I've been disconnected for like you."

### Details

Cherry blossom (pink) in parentheses above these will comment made by different person/relative about a mention in Main Story Cafe project page will (mention) a chapter release within the week. If this continues to just be caught up, I will move to just off of it and keep track of what needs to be done if something strange happens to me. Project pages are where the chapters are listed. Milestone mentions can be changed whenever I need and will be reflected in the revised version of the current notes.
